

Leadership Training: Excellence in Technical Customer Service

Applied Technology Academy

This one-day course is for those who provide customer service in a technical field . It is designed to help you interact with customers in a positive and professional manner . You will learn principles and skills to use as a technical customer service representative, whether you are interacting with customers in person or via remote systems like email or the telephone.

LEVEL	DURATION	EXPERIENCE	AVERAGE SALARY	LABS
Foundational	1 Day	None	Varies	No

Course Overview

As a provider of customer service in a technical field, you need to interact with customers to address their technical concerns. To do this effectively, you need to develop skills that will help you interact with customers in a positive and professional manner. In the Excellence in Technical Customer Service Training course, you will apply important principles and skills you can use as a technical customer service representative.

You will also need to respond to customer service queries via a remote system such as email or the telephone. In order to do this effectively, you will learn how to develop skills that will help you interact with customers in a positive and professional manner, as a remote customer service representative.
