

Practical Leadership for Technical Professionals

Course Duration: 3 Days

Course ID: 13768

Course Overview

You have developed skills to be successful in the field of technology. In this course, you will learn the practical skills you need to be an effective leader in your organization. Leadership enhances the skills employees at all levels need to be truly successful. When you learn practical leadership skills, you'll have the ability to motivate, coach, communicate with, and teach employees in such a way that they are more effective in their jobs and, as a result, you become more effective in your job.

Prerequisites

You should possess experience working in an organization as an individual contributor or possibly as a new technical manager.

Course Objectives

- Transition from an individual contributor to a leader.
- Develop an effective technical team.
- Lead a technical team effectively.
- Increase your effectiveness in leading different types of teams.
- Develop a team mission, values statement, and vision to achieve business results.
